

# INVESTMENT HIGHLIGHTS

Disrupting the global monetary system

## THE MONETARY SYSTEM

Kinesis introduces yield-bearing digital currencies based 1:1 on allocated physical gold (KAU currency) and silver (KAG currency). The vision for Kinesis is to deliver an evolutionary step beyond any monetary and banking system available today.

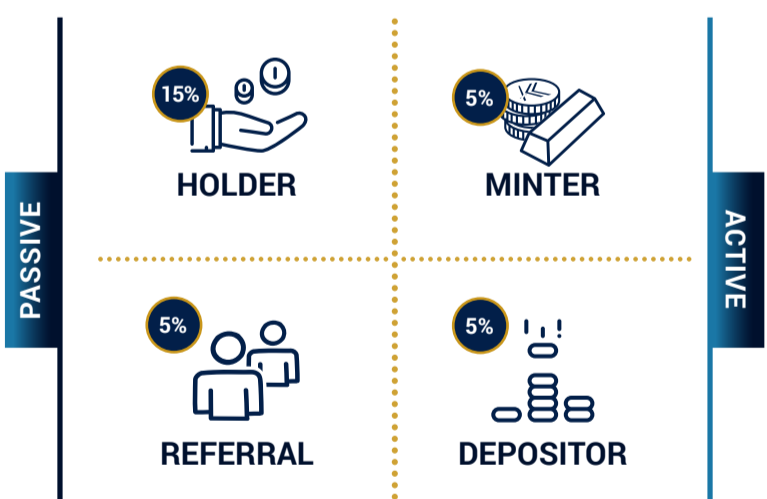

**1 KAU : 1 GRAM OF GOLD**  
**1 KAG : 10 GRAMS OF SILVER**

### This comprehensive monetary system encompasses;

1. The Kinesis currencies, which can be sent and received via the Kinesis eWallet
2. The Kinesis Blockchain Exchange, providing liquidity for the Kinesis currencies and other cryptocurrencies
3. The Kinesis debit card, allowing for instant conversion of KAU and KAG into fiat currency anywhere in the world where Visa/Mastercard is accepted

## PARTICIPATION RETURN SYSTEM

The Kinesis currencies offer a unique yield system to encourage adoption and stimulate use. When KAU and KAG are transferred between holders the network collects a 0.45% fee that is then accumulated and distributed monthly, in varying proportions, to participants in the Kinesis Monetary System as a passive or active return.

**We have developed a proprietary fork of the Stellar blockchain for these currencies, resulting in extremely fast transaction speeds and scalable global use.**

Holders of the Kinesis currencies have allocated legal title to the underlying physical bullion holdings so that they can exchange their currencies for physical gold and silver if they wish, subject to a minimum withdrawal amount.

## KVT: KINESIS VELOCITY TOKEN

**We are at the post-sale ITO (initial token offering) stage for our Kinesis Velocity Tokens (KVTs), holders of which will receive a proportionate 20% allocation of the fees accumulated in the network.**

Kinesis has active social channels, including Telegram and Medium, as well as extensive media coverage.

## KINESIS DETAILS

- ✓ Unique **asset-based** yield bearing digital asset
- ✓ **Proprietary** technology
- ✓ Significant **market potential**
- ✓ **Experienced management team** partnered with Allocated Bullion Exchange
- ✓ **Expansion** opportunities

## KVT & ICO RELEASE SCHEDULE

Kinesis was founded by the Allocated Bullion Exchange (ABX); meaning it already has extensive infrastructure and fully operational exchange technology for the trade and storage of physical bullion in 7 locations around the world.
